How Nature Inspired Gaudí In Creating La Sagrada Familia | TIME - How Nature Inspired Gaudí In Creating La Sagrada Familia | TIME 1 minute, 36 seconds - Every part of the Sagrada Familia has meaning, but **Gaudí's**, greatest inspiration in designing the temple came from nature.

Gaudi studied nature, and applied to architecture the laws that he recognized in the nature.

All the Sagrada Familia is inspired in the nature.

There is a lot of nature elements, leaves, floral, and animals.

The most evidentially are the doors at the entrance of the nativity facade.

Gaudi designed linear columns that act as trees.

Columns that are divided at different levels as branches

in order to support all the upper weight only with this interior structure.

The weight of the vaults and of the roof and of the towers will be concentrated in the columns.

We are now in the central nave, the light in this case is defined by the color of the stained-glass.

At the east side when the sun rises there are blue and green colors

And it's turning the colors to the red, orange, yellow a little bit dark at the passion facade

at the west, when the sun set, so the experience and the atmosphere will be different
