Steve Jobs is the authorized self-titled biography of American business magnate and Apple co-founder Steve Jobs. The book was written at the request of Jobs by Walter Isaacson, a former executive at CNN and Time who had previously written best-selling biographies of Benjamin Franklin and Albert Einstein.

Based on more than 40 interviews with Jobs conducted over two years—in addition to interviews with more than 100 family members, friends, adversaries, competitors, and colleagues—Isaacson was given "unprecedented" access to Jobs's life. Jobs is said to have encouraged the people interviewed to speak honestly. Although Jobs cooperated with the book, he asked for no control over its content other than the book's cover, and waived the right to read it before it was published.
