Changes in Latitudes, Changes in Attitudes is the seventh studio album by American popular music singer-songwriter Jimmy Buffett. This is his breakthrough album, which remains the best-selling studio album of Buffett's career, and contains his biggest single, "Margaritaville". It was initially released in January 1977 as ABC AB-990 and rereleased on its successor label, MCA.

Changes was very popular and critically well-received and was a transitional album on several levels for Buffett. In a commercial sense, it ushered in Buffett's greatest period of chart and airplay popularity – changing him from an FM cult favorite and minor hitmaker to a top-draw touring artist whose albums sold in the millions, receiving regular AM airplay at the time. Changes would be followed by equally popular and...

The Blues for Alice changes, Bird changes, Bird Blues, or New York Blues changes, is a chord progression, often named after Charlie Parker ("Bird"), which is a variation of the twelve-bar blues.

The progression uses a series of sequential ii–V or secondary ii–V progressions, and has been used in pieces such as Parker's "Blues for Alice". Toots Thielemans's "Bluesette", Freight Trane written by pianist Tommy Flanagan, and Parker's "Confirmation" also have similar progressions.

Change management (CM) is a discipline that focuses on managing changes within an organization. Change management involves implementing approaches to prepare and support individuals, teams, and leaders in

making organizational change. Change management is useful when organizations are considering major changes such as restructure, redirecting or redefining resources, updating or refining business process and systems, or introducing or updating digital technology.

Organizational change management (OCM) considers the full organization and what needs to change, while change management may be used solely to refer to how people and teams are affected by such organizational transition. It deals with many different disciplines, from behavioral and social sciences to information technology and business...

Language change

language changes in the past took place according to the same general principles as language changes visible in the present. Language change usually does

Language change is the process of alteration in the features of a single language, or of languages in general, over time. It is studied in several subfields of linguistics: historical linguistics, sociolinguistics, and evolutionary linguistics. Traditional theories of historical linguistics identify three main types of change: systematic change in the pronunciation of phonemes, or sound change; borrowing, in which features of a language or dialect are introduced or altered as a result of influence from another language or dialect; and analogical change, in which the shape or grammatical behavior of a word is altered to more closely resemble that of another word. Research on language change generally assumes the uniformitarian principle—the presumption that language changes in the past took...

Since World War I, there have been many changes in borders between nations, detailed below. For information on border changes from the end of the Napoleonic Wars to 1914, see the list of national border changes (1815–1914). Cases are only listed where there have been changes in borders, not necessarily including changes in ownership of a territory. For instance, many European colonies in Africa became independent without any adjustment to their borders, although some did have many changes. Also mentioned are some de facto changes, not recognized by the international community, such as Crimea, and South Ossetia.

Over 50% of the world's borders today were drawn as a result of British and French imperialism. The British and French drew the modern borders of the Middle East, the borders of Africa...

This is a timeline of geopolitical changes around the world since 2000. It includes dates of declarations of independence, changes in country name, changes of capital city or name, and changes in territory such as the annexation, cession, concession, occupation, or secession of land. Territorial conquests as a result of war are included on the timeline at the conclusion of military campaigns. However, those changes in the course of specific battles and day-to-day operations are generally not included in this list. Changes in airspace and maritime territory are included only when they are subject to a dispute.
