Being and Nothingness: An Essay on Phenomenological Ontology (French: L'Être et le néant : Essai d'ontologie phénoménologique), sometimes published with the subtitle A Phenomenological Essay on Ontology, is a 1943 book by the philosopher Jean-Paul Sartre. In the book, Sartre develops a philosophical account in support of his existentialism, dealing with topics such as consciousness, perception, social philosophy, self-deception, the existence of "nothingness", psychoanalysis, and the question of free will.

While a prisoner of war in 1940 and 1941, Sartre read Martin Heidegger's Being and Time (1927), which uses the method of Husserlian phenomenology as a lens for examining ontology. Sartre attributed the course of his own philosophical inquiries to his exposure to this work. Though influenced...

## Adoption

*Rome's emperors were adopted sons. Adrogation was a kind of Roman adoption in which the person adopted consented to be adopted by another. Some adoptions*

Adoption is a process whereby a person assumes the parenting of another, usually a child, from that person's biological or legal parent or parents. Legal adoptions permanently transfer all rights and responsibilities, along with filiation, from the biological parents to the adoptive parents.

Unlike guardianship or other systems designed for the care of the young, adoption is intended to effect a permanent change in status and as such requires societal recognition, either through legal or religious sanction. Historically, some societies have enacted specific laws governing adoption, while others used less formal means (notably contracts that specified inheritance rights and parental responsibilities without an accompanying transfer of filiation). Modern systems of adoption, arising in the 20th...

Like a Rolling Stone

*attempted to construct a rhyme scheme for "how does it feel?", penciling in "it feels real", "does it feel real", "shut up and deal", "get down and kneel"*

"Like a Rolling Stone" is a song by the American singer-songwriter Bob Dylan, released on July 20, 1965, by Columbia Records. Its confrontational lyrics originated in an extended piece of verse Dylan wrote in June 1965, when he returned exhausted from a grueling tour of England. Dylan distilled this draft into four verses and a chorus. He recorded "Like a Rolling Stone" a few weeks later for the album Highway 61 Revisited as its opening track.

During a difficult two-day preproduction, Dylan struggled to find the essence of the song, which was demoed without success in 34 time. A breakthrough happened when he recorded it in a rock format and the rookie session musician Al Kooper improvised a Hammond organ riff.

Columbia Records, unhappy with the song's six-minute length and electric sound,...

The international adoption of South Korean children started around 1953 as a measure to take care of the large number of mixed children that became orphaned during and after the Korean War. It quickly evolved to include orphaned Korean children. Religious organizations in the United States, Australia, and many Western European nations slowly developed the apparatus that sustained international adoption as a socially integrated system.

From the 1970s through the 2000s, thousands of children were adopted overseas every year. Over time, the South Korean government has sought to decrease international adoptions in favor of domestic adoptions. In 2023, seventy years after its start, South Korea still sent 79 children overseas, making it the longest-running international adoption program in the world...

The novel's major themes include acculturation and coming of age. It deals with the myriad hardships of immigration, painting a vivid picture of the struggle to assimilate, the sense of displacement, and the confusion of identity suffered by the García family, as they are uprooted...
