

Finding A Role

Finding Dory

The film is both a sequel and spin-off following the events of Finding Nemo (2003). Ellen DeGeneres and Albert Brooks reprise their roles from the first

Finding Dory is a 2016 American animated comedy-drama adventure film produced by Pixar Animation Studios for Walt Disney Pictures. It was directed by Andrew Stanton, co-directed by Angus MacLane, produced by Lindsey Collins, and written by Stanton and Victoria Strouse. The film is both a sequel and spin-off following the events of Finding Nemo (2003). Ellen DeGeneres and Albert Brooks reprise their roles from the first film, with Hayden Rolence (replacing Alexander Gould), Ed O'Neill, Kaitlin Olson, Ty Burrell, Diane Keaton and Eugene Levy joining the cast. The film focuses on the amnesiac fish Dory (DeGeneres), who journeys to be reunited with her parents (Keaton and Levy).

Disney planned to make a sequel to Finding Nemo since 2005, tasking its new studio Circle Seven Animation after disagreements...

Finding Nemo is a CGI animated film series and Disney media franchise that began with the 2003 film of the same name, produced by Pixar and released by Walt Disney Pictures. The original film was followed by a standalone sequel, Finding Dory, released in 2016. Both films were directed by Andrew Stanton. The film series received widespread critical acclaim from critics and audiences with two films released to-date, the series has grossed \$1.9 billion worldwide.

Finding aid

A finding aid, in the context of archival science and archival research, is an organization tool, a document containing detailed and processed metadata

A finding aid, in the context of archival science and archival research, is an organization tool, a document containing detailed and processed metadata and other information about a specific collection of records within an archive. Finding aids often consist of a documentary inventory and description of the materials, their source, and their structure. The finding aid for a fonds is usually compiled by the collection's entity of origin, provenance, or by an archivist during archival processing, and may be considered the archival science equivalent of a library catalog or a museum collection catalog. The finding aid serves the purpose of locating specific information within the collection. The finding aid can also help the archival repository manage their materials and resources.

The history...

Finding Nemo

Finding Nemo is a 2003 American animated comedy-drama adventure film produced by Pixar Animation Studios for Walt Disney Pictures. The film was directed

Finding Nemo is a 2003 American animated comedy-drama adventure film produced by Pixar Animation Studios for Walt Disney Pictures. The film was directed by Andrew Stanton, co-directed by Lee Unkrich, and

produced by Graham Walters, from a screenplay written by Stanton, Bob Peterson, and David Reynolds, based on a story by Stanton. The film stars the voices of Albert Brooks, Ellen DeGeneres, Alexander Gould, Willem Dafoe, and Geoffrey Rush. It tells the story of an overprotective clownfish named Marlin (Brooks) who, along with a forgetful regal blue tang named Dory (DeGeneres), searches for his missing son Nemo (Gould). Along the way, Marlin learns to take risks and comes to terms with Nemo taking care of himself.

Pre-production of the film began in 1997. The inspiration for Finding Nemo sprang...

Direction finding

Direction finding (DF), radio direction finding (RDF), or radiogoniometry is the use of radio waves to determine the direction to a radio source. The

Direction finding (DF), radio direction finding (RDF), or radiogoniometry is the use of radio waves to determine the direction to a radio source. The source may be a cooperating radio transmitter or may be an inadvertent source, a naturally occurring radio source, or an illicit or enemy system. Radio direction finding differs from radar in that only the direction is determined by any one receiver; a radar system usually also gives a distance to the object of interest, as well as direction. By triangulation, the location of a radio source can be determined by measuring its direction from two or more locations. Radio direction finding is used in radio navigation for ships and aircraft, to locate emergency transmitters for search and rescue, for tracking wildlife, and to locate illegal or interfering...

Finding Carter

episodes, finished airing in September 2014. A month after its debut, MTV renewed Finding Carter for a second season of an additional 12 episodes, which

Finding Carter is an American teen drama television series that aired on MTV for two seasons from July 8, 2014, to December 15, 2015.

The first season, which consisted of 12 episodes, finished airing in September 2014. A month after its debut, MTV renewed Finding Carter for a second season of an additional 12 episodes, which was later extended to 24 episodes. The network later cancelled the series in January 2016.

Root-finding algorithm

analysis, a root-finding algorithm is an algorithm for finding zeros, also called "roots", of continuous functions. A zero of a function f is a number x

In numerical analysis, a root-finding algorithm is an algorithm for finding zeros, also called "roots", of continuous functions. A zero of a function f is a number x such that $f(x) = 0$. As, generally, the zeros of a function cannot be computed exactly nor expressed in closed form, root-finding algorithms provide approximations to zeros. For functions from the real numbers to real numbers or from the complex numbers to the complex numbers, these are expressed either as floating-point numbers without error bounds or as floating-point values together with error bounds. The latter, approximations with error bounds, are equivalent to small isolating intervals for real roots or disks for complex roots.

Solving an equation $f(x) = g(x)$ is the same as finding the roots of the function $h(x) = f(x) - g(x)$...

Finding Neverland

Finding Neverland may refer to: Eden Eternal (also Finding Neverland Online), a free-to-play anime-styled massively multiplayer online role-playing game

Finding Neverland may refer to:

Eden Eternal (also Finding Neverland Online), a free-to-play anime-styled massively multiplayer online role-playing game

Finding Neverland (film), a 2004 historical fantasy drama film directed by Marc Forster and written by David Magee

Finding Neverland (musical), a musical with music and lyrics by Gary Barlow and Eliot Kennedy and a book by James Graham

Finding Neverland (soundtrack), the original soundtrack album of the 2004 film Finding Neverland

Finding ?Ohana is a 2021 American family adventure film by Jude Weng in her directorial debut and written by Christina Strain. The film stars Kea Peahu, Alex Aiono, Lindsay Watson, Owen Vaccaro and Kelly Hu. It premiered on Netflix on January 29, 2021.

Finding Forrester

Finding Forrester is a 2000 American drama film directed by Gus Van Sant and written by Mike Rich. In the film, a teenager, Jamal Wallace (Rob Brown)

Finding Forrester is a 2000 American drama film directed by Gus Van Sant and written by Mike Rich. In the film, a teenager, Jamal Wallace (Rob Brown), is invited to attend a prestigious private high school. By chance, Jamal befriends a reclusive writer, William Forrester (Sean Connery), through whom he refines his talent for writing and comes to terms with his identity. Anna Paquin, F. Murray Abraham, Michael Pitt, Glenn Fitzgerald, April Grace, Busta Rhymes, and Charles Bernstein star in supporting roles.

Although the film is not based on a true story, film critics have compared the character portrayed by Connery with real-life writer J. D. Salinger. Connery later acknowledged that the inspiration for his role was indeed Salinger.
