

A B

AB

equivalent of an S.A. corporation Aktiebolag, Swedish for "corporation", similar to AG, Ltd or Inc A & B High Performance Firearms, a defunct sporting firearms

AB, Ab, or ab may refer to:

B cell

B cells, also known as B lymphocytes, are a type of lymphocyte. They function in the humoral immunity component of the adaptive immune system. B cells

B cells, also known as B lymphocytes, are a type of lymphocyte. They function in the humoral immunity component of the adaptive immune system. B cells produce antibody molecules which may be either secreted or inserted into the plasma membrane where they serve as a part of B-cell receptors. When a naïve or memory B cell is activated by an antigen, it proliferates and differentiates into an antibody-secreting effector cell, known as a plasmablast or plasma cell. In addition, B cells present antigens (they are also classified as professional antigen-presenting cells, APCs) and secrete cytokines. In mammals B cells mature in the bone marrow, which is at the core of most bones. In birds, B cells mature in the bursa of Fabricius, a lymphoid organ where they were first discovered by Chang and Glick...

A/B testing

A/B testing (also known as bucket testing, split-run testing or split testing) is a user-experience research method. A/B tests consist of a randomized

A/B testing (also known as bucket testing, split-run testing or split testing) is a user-experience research method. A/B tests consist of a randomized experiment that usually involves two variants (A and B), although the concept can be also extended to multiple variants of the same variable. It includes application of statistical hypothesis testing or "two-sample hypothesis testing" as used in the field of statistics. A/B testing is employed to compare multiple versions of a single variable, for example by testing a subject's response to variant A against variant B, and to determine which of the variants is more effective.

Multivariate testing or multinomial testing is similar to A/B testing but may test more than two versions at the same time or use more controls. Simple A/B tests are not...

B movie

A B movie, or B film, is a type of low-budget commercial motion picture. Originally, during the Golden Age of Hollywood, this term specifically referred

A B movie, or B film, is a type of low-budget commercial motion picture. Originally, during the Golden Age of Hollywood, this term specifically referred to films meant to be shown as the lesser-known second half of a double feature, somewhat similar to B-sides in recorded music. However, the production of such films as "second features" in the United States largely declined by the end of the 1950s. This shift was due to the rise of commercial television, which prompted film studio B movie production departments to transition into television film production divisions. These divisions continued to create content similar to B movies, albeit in the form of low-budget films and series.

Today, the term "B movie" is used in a broader sense. In post-Golden Age usage, B movies can encompass a wide spectrum...

A-side and B-side

The A-side and B-side are the two sides of vinyl records and cassettes, and the terms have often been printed on the labels of two-sided music recordings

The A-side and B-side are the two sides of vinyl records and cassettes, and the terms have often been printed on the labels of two-sided music recordings. The A-side of a single usually features a recording that its artist, producer, or record company intends to be the initial focus of promotional efforts and radio airplay, with the aim of it becoming a hit record. The B-side (or "flip-side") is a secondary recording that typically receives less attention, although some B-sides have been as successful as, or more so than, their A-sides.

Use of this language has largely declined in the 21st century as the music industry has transitioned away from analog recordings towards digital formats without physical sides, such as downloads and streaming. Nevertheless, some artists and labels continue to...

B meson

B mesons are mesons composed of a bottom antiquark and either an up (B^+), down (B^0), strange (B^0_s) or charm quark (B^+_c). The combination of a bottom

In particle physics, B mesons are mesons composed of a bottom antiquark and either an up (B^+), down (B^0), strange (B^0_s) or charm quark (B^+_c). The combination of a bottom antiquark and a top quark is not thought to be possible because of the top quark's short lifetime. The combination of a bottom antiquark and a bottom quark is not a B meson, but rather bottomonium, which is something else entirely.

Each B meson has an antiparticle that is composed of a bottom quark and an up (B^-), down (B^0), strange (B^0_s) or charm (B^-_c) antiquark respectively.

B vitamins

B vitamins are a class of water-soluble vitamins that play important roles in cell metabolism and synthesis of red blood cells. They are a chemically diverse

B vitamins are a class of water-soluble vitamins that play important roles in cell metabolism and synthesis of red blood cells. They are a chemically diverse class of compounds.

Dietary supplements containing all eight are referred to as a vitamin B complex. Individual B vitamins are referred to by B-number or by chemical name, such as B1 for thiamine, B2 for riboflavin, and B3 for niacin, while some are more commonly recognized by name than by number, such as pantothenic acid (B5), biotin (B7), and folate (B9). B vitamins are present in protein-rich foods, such as fish, poultry, meat, dairy products, and eggs; they are also found in leafy green vegetables, beans, and peas. Fortified foods, such as breakfast cereals, baked products, and infant formulas, may contain B vitamins.

Each B vitamin...

Alternative R&B

Alternative R&B (also referred to as alt-R&B, indie R&B, and originally known as PBR&B, hipster R&B, emo R&B, or R-Neg-B) is a term used by music journalists

Alternative R&B (also referred to as alt-R&B, indie R&B, and originally known as PBR&B, hipster R&B, emo R&B, or R-Neg-B) is a term used by music journalists to describe a stylistic alternative to contemporary

R&B that began in the mid 2000s and came to prominence with musical artists such as Frank Ocean, Khalid, SZA, Summer Walker, Jhené Aiko, Brent Faiyaz, Zayn Malik, Tyler, the Creator, Steve Lacy, Childish Gambino, Miguel, Drake, The Weeknd, Kehlani, Tinashe, Bryson Tiller, PartyNextDoor, Tory Lanez, 6lack, and others. It is considered to be "more progressive and diverse" than its mainstream counterpart.

Lega B

The Lega Nazionale Professionisti B (Italian for National Professionals League B), commonly known as LNPB or Lega B (B League), is the governing body that

The Lega Nazionale Professionisti B (Italian for National Professionals League B), commonly known as LNPB or Lega B (B League), is the governing body that runs the second tier of professional football competitions in Italy, the Serie B. It was previously known as Lega Nazionale Professionisti Serie B or just Lega Serie B.

It was founded on 7 July 2010, following a split between Serie A and Serie B clubs, which led to the dissolution of the Lega Calcio and creation of two new leagues, the Lega Serie A and Lega Serie B respectively. Since April 2011, Lega Serie B has joined the European Professional Football Leagues association.

B minor

B minor is a minor scale based on B, consisting of the pitches B, C?, D, E, F?, G, and A. Its key signature has two sharps. Its relative major is D major

B minor is a minor scale based on B, consisting of the pitches B, C?, D, E, F?, G, and A. Its key signature has two sharps. Its relative major is D major and its parallel major is B major.

The B natural minor scale is:

Changes needed for the melodic and harmonic versions of the scale are written in with accidentals as necessary. The B harmonic minor and melodic minor scales are:

Christian Friedrich Daniel Schubart (1739–1791) regarded B minor as a key expressing a quiet acceptance of fate and very gentle complaint, something commentators find to be in line with Bach's use of the key in his St John Passion. By the end of the Baroque era, however, conventional academic views of B minor had shifted: Composer-theorist Francesco Galeazzi (1758–1819) opined that B minor was not suitable for music...
