Resistance is a concept created by American novelist Steven Pressfield that illustrates the universal force that he claims acts against human creativity. It was first described in his non-fiction book *The War of Art* and elaborated in the follow-up books *Do The Work* and *Turning Pro*, and in other essays. It is also a recurring theme in some of his fiction novels such as *The Legend of Bagger Vance* and *The Virtues of War*.

Resistance is described in a mythical fashion as a universal force that has one sole mission: to keep things as they are. Pressfield claims that Resistance does not have a personal vendetta against anyone, rather it is simply trying to accomplish its only mission. It is the force that will stop an individual's creative activity through any means necessary, whether it be rationalizing...

Samuel Gompers (né Gumpertz; January 27, 1850 – December 11, 1924) was a British-born American cigar maker and labor union leader. A key figure in American labor history, Gompers founded the American Federation of Labor (AFL) and served as the organization's president from 1886 to 1894, and from 1895 until his death in 1924. He promoted harmony among the different craft unions that comprised the AFL, trying to minimize jurisdictional battles. He promoted thorough organization and collective bargaining in order to secure shorter hours and higher wages, which he considered the essential first steps to emancipating labor.

He was against the AFL member unions taking political action to "elect their friends" and "defeat their enemies". In politics he mostly supported Democrats, and occasionally...

Cultural diplomacy is a type of soft power that includes the "exchange of ideas, information, art, language and other aspects of culture among nations and their peoples in order to foster mutual understanding". The purpose of cultural diplomacy is for the people of a foreign nation to develop an understanding of the nation's ideals and institutions in an effort to build broad support for economic and political objectives. In essence "cultural diplomacy reveals the soul of a nation", which in turn creates influence. Public diplomacy has played an important role in advancing national security objectives.

Alexander Hamilton (January 11, 1755 or 1757 – July 12, 1804) was an American military officer, statesman, and Founding Father who served as the first U.S. secretary of the treasury from 1789 to 1795 under the presidency of George Washington.

Born out of wedlock in Charlestown, Nevis, Hamilton was orphaned as a child and taken in by a prosperous merchant. He was given a scholarship and pursued his education at King's College (now Columbia University) in New York City where, despite his young age, he was an anonymous but prolific and widely read pamphleteer and advocate for the American Revolution. He then served as an artillery officer in the American Revolutionary War, where he saw military action against the British Army in the New York and New Jersey campaign, served for four years as aide...

The Easter Offensive, also known as the 1972 spring–summer offensive (Vietnamese: Chiến dịch Xuân–Hè 1972) by North Vietnam, or the Red Fiery Summer (Mùa hè ?? lửa) as romanticized in South Vietnamese literature, was a military campaign conducted by the People's Army of Vietnam (PAVN, the regular army of communist North Vietnam) against the Army of the Republic of Vietnam (ARVN, the regular army of South Vietnam) and the United States military between 30 March and 22 October 1972, during the Vietnam War.

This conventional invasion (the largest invasion since 300,000 Chinese troops had crossed the Yalu River into North Korea during the Korean War) was a radical departure from previous North Vietnamese offensives. The offensive was designed to achieve a decisive victory, which even if it did...

Eastern Bloc politics followed the Red Army's occupation of much of Central and Eastern Europe at the end of World War II and the Soviet Union's installation of Soviet-controlled Marxist–Leninist governments in the region that would be later called the Eastern Bloc through a process of bloc politics and repression. These governments contained apparent elements of representative democracy (such as the highest organ of state power, elections, and sometimes even multiple political parties) to conceal the process initially.

Once in power, each country's Soviet-controlled Communist Party took permanent control of the administration, political organs, police, societal organizations and economic structures to ensure that no effective opposition could arise and to control socioeconomic and political...
