Twitter, officially known as X since 2023, is an American microblogging and social networking service. It is one of the world's largest social media platforms and one of the most-visited websites. Users can share short text messages, images, and videos in short posts commonly known as "tweets" (officially "posts") and like other users' content. The platform also includes direct messaging, video and audio calling, bookmarks, lists, communities, Grok integration, job search, and a social audio feature (Spaces). Users can vote on context added by approved users using the Community Notes feature.

Twitter was created in March 2006 by Jack Dorsey, Noah Glass, Biz Stone, and Evan Williams, and was launched in July of that year. Twitter grew quickly; by 2012 more than 100 million users produced 340...

The Twitter Files are a series of releases of select internal Twitter, Inc. documents published from December 2022 through March 2023 on Twitter. CEO Elon Musk gave the documents to journalists Matt Taibbi, Bari Weiss, Lee Fang, and authors Michael Shellenberger, David Zweig, Alex Berenson, and Paul D. Thacker shortly after he acquired Twitter on October 27, 2022. Taibbi and Weiss coordinated the publication of the documents with Musk, releasing details of the files as a series of Twitter threads.

After the first set of files was published, various technology and media journalists said that the reported evidence demonstrated little more than Twitter's policy team struggling with difficult decisions, but resolving such matters swiftly. Some conservatives said that the documents demonstrated...

Since the launch of Twitter on July 15, 2006, there have been many notable uses for the service in a variety of environments, including political, economic, social and cultural uses. As users tweet their messages on Twitter, they encourage other people to respond and engage in online discussions as well as offline activities. User engagement on Twitter is usually measured with likes, replies and retweets and is a form of social power. After the 2022 acquisition of Twitter by Elon Musk, the platform rebranded to the name X; however, it is still widely referred to as Twitter.

Twitter usage by public figures includes the posting and content-sharing by celebrity and politician users on Twitter.

This particular use of Twitter has become an important factor for both Twitter itself and for the celebrity users. As with many other social networking websites, usage by public figures attracts more people to Twitter, thereby increasing opportunities for advertising.

Twitter has provided two facilities to its high-profile users. The first is the verified account. Secondly, Twitter attempts to work with celebrity and media public relations staff to encourage them to make use of Twitter in their advertising and publicity campaigns, encouraging them to use Twitter in their promotional campaigns, and providing support and analysis services to determine what worked, what created...

Black Twitter is an internet community largely consisting of the Black diaspora of users in the United States and other nations on X (formerly Twitter), focused on issues of interest to the black community. Feminista Jones described it in Salon as "a collective of active, primarily African-American Twitter users who have created a virtual community proving adept at bringing about a wide range of sociopolitical changes." A similar Black Twitter community arose in South Africa in the early 2010s.

A Twitter bot or an X bot is a type of software bot that controls a Twitter/X account via the Twitter API. The social bot software may autonomously perform actions such as tweeting, retweeting, liking, following,

unfollowing, or direct messaging other accounts. The automation of Twitter accounts is governed by a set of automation rules that outline proper and improper uses of automation. Proper usage includes broadcasting helpful information, automatically generating interesting or creative content, and automatically replying to users via direct message. Improper usage includes circumventing API rate limits, violating user privacy, spamming, and sockpuppeting. Twitter bots may be part of a larger botnet. They can be used to influence elections and in misinformation campaigns.

Businessman and U.S. political figure Elon Musk initiated an acquisition of the American social media company Twitter, Inc. on April 14, 2022, and concluded it on October 27, 2022. Musk had begun buying shares of the company in January 2022, becoming its largest shareholder by April with a 9.1 percent ownership stake. Twitter invited Musk to join its board of directors, an offer he initially accepted before declining. On April 14, Musk made an unsolicited offer to purchase the company, to which Twitter's board responded with a "poison pill" strategy to resist a hostile takeover before unanimously accepting Musk's buyout offer of \$44 billion on April 25. Musk stated that he planned to introduce new features to the platform, make its algorithms open-source, combat spambot accounts, and promote...
