Who Can You Trust? is the debut studio album by English electronic music group Morcheeba. It was released in 1996 on China Records in the United Kingdom and Discovery and Sire Records in the United States. Stylistically, the album is by far the band's most trip hop oriented release, consisting of languid, looping grooves, using mostly Rhodes piano, electric guitar and scratching. At the end of 1998 the album was re-issued as 2-CDs with the 8 track disc Beats & B-Sides collection.

A royalty trust is a type of corporation, mostly in the United States or Canada, usually involved in oil and gas production or mining. However, unlike most corporations, its profits are not taxed at the corporate level provided a certain high percentage (e.g. 90%) of profits are distributed to shareholders as dividends. The dividends are then taxed as personal income. This system, similar to real estate investment trusts, effectively avoids the double taxation of corporate income.

Texas oilman T. Boone Pickens is often credited with creating the first royalty trust in 1979; however Marine Petroleum Trust (Marps) was created in 1956, twenty three years earlier.

A protected trust deed, overseen by the Accountant in Bankruptcy, is a voluntary but formal arrangement that is used by Scottish residents where a debtor (who can be a natural person or partnership) grants a trust deed in favor of the trustee which transfers their estate to the trustee for the benefit of creditors. Any person wanting to make an application for a protected trust deed must have been a resident of Scotland for at least six months prior to making the application.

This can be a way for people to deal with debt problems by protecting the debtor from the legal enforcement of debts which are included in the trust deed, but only once it has become protected. It will not reverse any action that has been taken prior to the trust deed, such as earning or bank arrestments, although the...

The National Trust (Welsh: Ymddiriedolaeth Genedlaethol) is a heritage and nature conservation charity and membership organisation in England, Wales and Northern Ireland.

The Trust was founded in 1895 by Octavia Hill, Sir Robert Hunter and Hardwicke Rawnsley to "promote the permanent preservation for the benefit of the Nation of lands and tenements (including buildings) of beauty or historic interest". It has since been given statutory powers, starting with the National Trust Act 1907. Historically, the Trust acquired land by gift and sometimes by public subscription and appeal, but after World War II the loss of country houses resulted in many such properties being acquired either by gift from the former owners or through the National Land Fund.

One of the largest landowners in the United...

Baye, Amy Adams, and James Brolin in supporting roles. The screenplay by Jeff Nathanson is based on the eponymous and semi-autobiographical book by Frank Abagnale Jr., who claims that prior to his 19th birthday, he successfully performed cons worth millions of dollars by posing as a Pan American World Airways pilot, a Georgia doctor, and a Louisiana parish prosecutor. However, the truth of his story is, as of the 2020s, heavily disputed.

A movie version of Abagnale's book was contemplated soon after it was published in 1980 but began in earnest in 1997 when Spielberg's DreamWorks bought the film...

Web of trust

you will accumulate keys from other people that you may want to designate as trusted introducers. Everyone else will each choose their own trusted introducers

In cryptography, a web of trust is a concept used in PGP, GnuPG, and other OpenPGP-compatible systems to establish the authenticity of the binding between a public key and its owner. Its decentralized trust model is an alternative to the centralized trust model of a public key infrastructure (PKI), which relies exclusively on a certificate authority (or a hierarchy of such). As with computer networks, there are many independent webs of trust, and any user (through their public key certificate) can be a part of, and a link between, multiple webs.

The web of trust concept was first put forth by PGP creator Phil Zimmermann in 1992 in the manual for PGP version 2.0:

As time goes on, you will accumulate keys from other people that you may want to designate as trusted introducers. Everyone else...

The King's Trust (formerly the Prince's Trust) is a United Kingdom-based charity founded in 1976 by King Charles III (then Prince of Wales) to help vulnerable young people get their lives on track. It supports 11-to-30-year-olds who are unemployed or struggling at school and at risk of exclusion. Many of the young people helped by the trust face issues such as homelessness, disability, mental health problems, or trouble with the law.

It runs a range of training programmes, providing practical and financial support to build young people's confidence and motivation.

In 1999, the numerous trust charities were brought together as the Prince's Trust and acknowledged by Queen Elizabeth II at a ceremony in Buckingham Palace where she granted it a royal charter. The following year it devolved in Wales...
