Forbes magazine reported in 2017 that hip hop was the "dominant musical genre" in the U.S. music industry and, for the first time, outsold any other U.S. musical genre. With its cultural foundation in the South Bronx, hip hop has grown in popularity since its beginnings in 1979. Popular dominance of the genre coincided with the international #MeToo movement, which exposed the sexual misconduct of men in positions of power in the field of entertainment. Although women and men from all walks of life worldwide have shared their #MeToo stories, accounts in the music industry (particularly in the genre of rap) were few; the industry evaded public scrutiny, despite its dominance as broadcast and streaming media.

A controversial issue in rap and hip-hop culture since its inception has been the violence...
