Chile's international calling code

.56-56 Spencer

The .56-56 Spencer (14×22mmRF) was an American black powder rifle cartridge. It was the first self-contained metallic cartridge for a repeating rifle

The .56-56 Spencer (14×22mmRF) was an American black powder rifle cartridge. It was the first self-contained metallic cartridge for a repeating rifle.

Designed for the Spencer repeating rifle and carbine, patented 6 March 1860, it was employed by cavalry during the American Civil War, first appearing at Sharpsburg in rifle form. No Spencer carbines were on issue at the Battle of Gettysburg, though two units under Custer had the rifles. The .56-56 was loaded with a slug of 350–360 gr (22.7–23.3 g) over 42–45 gr (2.7–2.9 g) of black powder. It was loaded by a variety of companies, and was also used in the Ballard and Joslyn Model 1861 non-repeating breechloading rifles and carbines. It is a short-ranged cartridge, ineffective on anything larger than deer. Commercially loaded ammunition continued to be available into the 1920s and 1930s.

5.56×45mm NATO

The 5.56×45mm NATO (official NATO nomenclature 5.56 NATO, commonly pronounced "five-five-six") is a rimless bottlenecked centerfire intermediate cartridge

The 5.56×45mm NATO (official NATO nomenclature 5.56 NATO, commonly pronounced "five-five-six") is a rimless bottlenecked centerfire intermediate cartridge family developed in the late 1970s in Belgium by FN Herstal. It consists of the SS109, L110, and SS111 cartridges. On 28 October 1980, under STANAG 4172, it

was standardized as the second standard service rifle cartridge for NATO forces as well as many non-NATO countries. Though they are not identical, the 5.56×45mm NATO cartridge family was derived from the .223 Remington cartridge designed by Remington Arms in the early 1960s, which has a near-identical case but fires a slightly larger 5.70 mm (.2245 in) projectile.

56 (number)

56 (fifty-six) is the natural number following 55 and preceding 57. 56 is: The sum of the first six triangular numbers (making it a tetrahedral number)

56 (fifty-six) is the natural number following 55 and preceding 57.

Type 56 assault rifle

The Type 56 (; literally; "Assault Rifle, Model of 1956") is a Chinese 7.62×39mm assault rifle. It is a licensed derivative of the Soviet-designed AK-47

The Type 56 (; literally; "Assault Rifle, Model of 1956") is a Chinese 7.62×39mm assault rifle. It is a licensed derivative of the Soviet-designed AK-47 (specifically the Type 3 variant).

The Type 56 rifle was adopted by the People's Liberation Army (PLA) designated as the "Type 1956 Submachine Gun", because the Type 56 took the role of SMG rather than infantry service rifle in the PLA in the rifle's early service years. Production started in 1956 at State Factory 66 but was eventually handed over to Norinco and PolyTech, who continue to manufacture the rifle primarily for export.

56 Days

56 Days is an upcoming American erotic thriller television series created by Lisa Zwerling and Karyn Usher for Amazon Prime Video. Based on Catherine Ryan

56 Days is an upcoming American erotic thriller television series created by Lisa Zwerling and Karyn Usher for Amazon Prime Video. Based on Catherine Ryan Howard's novel of the same name, it stars Dove Cameron and Avan Jogia.

56 Dean Street

56 Dean Street, based in Dean Street in London's Soho district, is a sexual health clinic. Part of the Chelsea and Westminster Hospital NHS Foundation

56 Dean Street, based in Dean Street in London's Soho district, is a sexual health clinic. Part of the Chelsea and Westminster Hospital NHS Foundation Trust. It also has a second branch, Dean Street Express, located at 34 Dean Street, which offers a sexual disease testing service. As of 2017, the clinic was the largest HIV clinic in Europe. In addition to its specialism in HIV infection and other sexually transmitted diseases, it also

offers general sexual health care services, including contraception.

56 kbit/s line

A 56 kbit/s line is a digital connection capable of carrying 56 kilobits per second (kbit/s), or 56,000 bit/s, the data rate of a classical single channel

A 56 kbit/s line is a digital connection capable of carrying 56 kilobits per second (kbit/s), or 56,000 bit/s, the data rate of a classical single channel digital telephone line in North America. Since the wide deployment of faster, cheaper technologies, 56 kbit/s lines are generally considered to be an obsolete technology.

Crimean War

Outstanding achievements in battlefield surgery were done during the war of 1853–56. "Nikolai Pirogov, who pioneered the system of field surgery that other nations

The Crimean War was fought between the Russian Empire and an alliance of the Ottoman Empire, the Second French Empire, the United Kingdom of Great Britain and Ireland, and the Kingdom of Sardinia-Piedmont from October 1853 to February 1856. Geopolitical causes of the war included the "Eastern question" (the decline of the Ottoman Empire, the "sick man of Europe"), expansion of Imperial Russia in the preceding Russo-Turkish wars, and the British and French preference to preserve the Ottoman Empire to maintain the balance of power in the Concert of Europe.

The flashpoint was a dispute between France and Russia over the rights of Catholic and Orthodox minorities in Palestine. After the Sublime Porte refused Tsar Nicholas I's demand that the Empire's Orthodox subjects were to be placed under his protection, Russian troops occupied the Danubian Principalities in July 1853. The Ottomans declared war on Russia in October and halted the Russian advance at Silistria. Fearing the growth of Russian influence and compelled by public outrage over the annihilation of the Ottoman squadron at Sinop, Britain and France joined the war on the Ottoman side in March 1854.

In September 1854, after extended preparations, allied forces landed in Crimea in an attempt to capture Russia's main naval base in the Black Sea, Sevastopol. They scored an early victory at the Battle of the Alma. The Russians counterattacked in late October in what became the Battle of Balaclava and were repulsed, and a second counterattack at Inkerman ended in a stalemate. The front settled into the eleven-month-long Siege of Sevastopol, involving brutal conditions for troops on both sides. Smaller military actions took place in the Caucasus (1853–1855), the White Sea (July–August 1854) and the North Pacific (1854–1855). The Kingdom of Sardinia-Piedmont entered on the allies' side in 1855.

Sevastopol ultimately fell following a renewed French assault on the Malakoff redoubt in September 1855. Isolated and facing a bleak prospect of invasion by the West if the war continued, Russia sued for peace in March 1856. Due to the conflict's domestic unpopularity, France and Britain welcomed the development. The Treaty of Paris, signed on 30 March 1856, ended the war. It forbade Russia to base warships in the Black Sea. The Ottoman vassal states of Wallachia and Moldavia became largely independent. Christians in the Ottoman Empire gained a degree of official equality, and the Orthodox Church regained control of the Christian churches in dispute.

The Crimean War was one of the first conflicts in which military forces used modern technologies such as explosive naval shells, railways and telegraphs. It was also one of the first to be documented extensively in written reports and in photographs. The war quickly symbolized logistical, medical and tactical failures and mismanagement. The reaction in Britain led to a demand for the professionalization of medicine, most famously achieved by Florence Nightingale, who gained worldwide attention for pioneering modern nursing while she treated the wounded.

The Crimean War also marked a turning point for the Russian Empire. It weakened the Imperial Russian Army, drained the treasury and undermined its influence in Europe. The humiliating defeat forced Russia's educated elites to identify the country's fundamental problems. It became a catalyst for reforms of Russia's social institutions, including the emancipation reform of 1861 which abolished serfdom in Russia, and overhauls in the justice system, local self-government, education and military service.
