

# Electroacoustics

## Acoustical engineering

*sound and rely on electroacoustic engineering, e.g. mobile phones, portable media players, and tablet computers. The term "electroacoustics" is also used*

Acoustical engineering (also known as acoustic engineering) is the branch of engineering dealing with sound and vibration. It includes the application of acoustics, the science of sound and vibration, in technology. Acoustical engineers are typically concerned with the design, analysis and control of sound.

One goal of acoustical engineering can be the reduction of unwanted noise, which is referred to as noise control. Unwanted noise can have significant impacts on animal and human health and well-being, reduce attainment by students in schools, and cause hearing loss. Noise control principles are implemented into technology and design in a variety of ways, including control by redesigning sound sources, the design of noise barriers, sound absorbers, suppressors, and buffer zones, and the use...

## Electroacoustic

*Electroacoustic or Electroacoustics may refer to: Electroacoustics (acoustical engineering), a branch of acoustical engineering Electro-acoustic guitar*

Electroacoustic or Electroacoustics may refer to:

Electroacoustics (acoustical engineering), a branch of acoustical engineering

Electro-acoustic guitar, a type of guitar

Electroacoustic music, a variety of experimental music

## Electroacoustic music

*eContact! 8.4 – Ressources éducatives / Educational Resources (Montréal: CEC), an annotated list of journals publishing articles related to electroacoustics.*

Electroacoustic music is a genre of Western art music in which composers use recording technology and audio signal processing to manipulate the timbres of acoustic sounds in the creation of pieces of music. It originated around the middle of the 20th century, following the incorporation of electronic sound production into formal compositional practice. The initial developments in electroacoustic music composition to fixed media during the 20th century are associated with the activities of the Groupe de recherches musicales at the ORTF in Paris, the home of musique concrète, the Studio for Electronic Music in Cologne, where the focus was on the composition of elektronische Musik, and the Columbia-Princeton Electronic Music Center in New York City, where tape music, electronic music, and computer...

## Canadian Electroacoustic Community

*community of electroacoustic practitioners, raise the profile of electroacoustics in the Canadian arts milieu, and to promote Canadian electroacoustic composers*

La Communauté électroacoustique canadienne (CEC; English: The Canadian Electroacoustic Community) is Canada's national electroacoustic / computer music / sonic arts organization and is dedicated to promoting this progressive art form in its broadest definition: from "pure" acousmatic and computer music to

soundscape and sonic art to hardware hacking and beyond.

Among the objectives, as written in the Bylaws of the corporation, are the "support, development, production, distribution of information, materials, works... for the electroacoustic/computer music community in Canada... with continuing special concern for the younger generation of individuals and women in this community. The CEC recognizes and supports the principle of sexual equality, and also, the equal status of English and French...

#### Hellenic Electroacoustic Music Composers Association

*The Hellenic Electroacoustic Music Composers Association (HELMCA), founded in 2002, is the only national association of electroacoustic music in Greece*

The Hellenic Electroacoustic Music Composers Association (HELMCA), founded in 2002, is the only national association of electroacoustic music in Greece.. It is registered as a nonprofit organization (act. 1059.91/2001). Its members are active composers and sound artists who creatively use advances in music technology, producing a variety of musical forms of sonic art in their work. The main aim of HELMCA is to strengthen the collaboration and solidarity among its members and to promote electroacoustic music in Greece and abroad.

HELMCA became the official Greek federation of the International Confederation of Electroacoustic Music (CIME/ICEM) in June 2006, and it is the national member of the IREM (International Rostrum of Electroacoustic Music, a part of UNESCO).

#### International Confederation of Electroacoustic Music

*The International Confederation of Electroacoustic Music (ICEM), or Confédération Internationale de Musique Électroacoustique (CIME), cofounded by the*

The International Confederation of Electroacoustic Music (ICEM), or Confédération Internationale de Musique Électroacoustique (CIME), cofounded by the Bourges International Confederation of Electroacoustic Music (IMEB, French: Institut international de musique électroacoustique de Bourges, also "Bourges International Institute of Electroacoustic Music"), formerly Groupe de musique expérimentale de Bourges, in 1981 in Bourges, is a music organization in support of electroacoustic music, including computer music.

The ICEM holds the International Electronic Music Festival and gives music awards for electroacoustic music during the former Bourges International Electro-Acoustic Music Competition (also known as "Bourges Electroacoustic Music Competition" and as the International Electro-Acoustic...

#### Quad Electroacoustics

*Acoustical Manufacturing Co. Ltd changed its name to QUAD Electroacoustics Ltd. In 1995, QUAD Electroacoustics Ltd was bought by Verity Group plc, joining its existing*

QUAD Electroacoustics is a British manufacturer of hi-fi equipment, based Huntingdon, England. QUAD is part of the IAG Group, with corporate headquarters located in Shenzhen, China.

#### Simon Emmerson (composer)

*computer music'. YouTube – [https://www.youtube.com/watch?v=78zI\\_8J8oVE](https://www.youtube.com/watch?v=78zI_8J8oVE) 'Electroacoustics – The Art of The Next Decade', The Second Call – contemporary music*

Simon Emmerson is an electroacoustic music composer working mostly with live electronics. He was born in Wolverhampton, UK, on 15 September 1950.

Simon Emmerson studied at Cambridge and at City University, London where he founded the electroacoustic music studio in 1975, remaining until 2004 when he joined De Montfort University, Leicester as Professor in Music, Technology and Innovation, and where he is now Emeritus Professor at the Institute for Sonic Creativity. He has been a composer and writer on electroacoustic music since the early 1970s. Commissions include: Intermodulation, Singcircle, Lontano, Jane Manning, Philip Mead, Jane Chapman, GRM (Paris), IMEB (Bourges), Inventionen (Berlin), Sond-Arte Ensemble (Lisbon), and more recently for BEAST (Birmingham) and for soloists Darragh Morgan...

Live electronic music

*électroacoustique / Live-electronics – Improvisation – Interactivity in Electroacoustics (October). Montréal: CEC. Burns, Christopher (2002). "Realizing Lucier*

Live electronic music (also known as live electronics) is a form of music that can include traditional electronic sound-generating devices, modified electric musical instruments, hacked sound generating technologies, and computers. Initially the practice developed in reaction to sound-based composition for fixed media such as musique concrète, electronic music and early computer music. Musical improvisation often plays a large role in the performance of this music. The timbres of various sounds may be transformed extensively using devices such as amplifiers, filters, ring modulators and other forms of circuitry. Real-time generation and manipulation of audio using live coding is now commonplace.

IEEE Transactions on Signal Processing

*IRE Transactions on Audio, renamed to IEEE Transactions on Audio and Electroacoustics in 1966 and to IEEE Transactions on Acoustics, Speech, and Signal Processing*

The IEEE Transactions on Signal Processing is a biweekly peer-reviewed scientific journal published by the Institute of Electrical and Electronics Engineers covering research on signal processing. It was established in 1953 as the IRE Transactions on Audio, renamed to IEEE Transactions on Audio and Electroacoustics in 1966 and to IEEE Transactions on Acoustics, Speech, and Signal Processing in 1974, before obtaining its current name in 1992. The journal is abstracted and indexed in MEDLINE/PubMed and the Science Citation Index Expanded. According to the Journal Citation Reports, the journal has a 2022 impact factor of 5.4. The editor-in-chief is Wing-Kin (Ken) Ma (Chinese University of Hong Kong).
