

Student CD ROM

Interactive storybook

An interactive storybook (or CD-ROM storybook) is a children's story packaged with animated graphics, sound or other interactive elements (e.g., word pronunciation)

An interactive storybook (or CD-ROM storybook) is a children's story packaged with animated graphics, sound or other interactive elements (e.g., word pronunciation). Such stories are usually published as software on CD-ROMs. They have also been referred to as computer books, picture book programs, books-on-disk, talking books, or living books.

This software is targeted at young readers (usually kindergarten to second grade) for educational purposes.

In their seminal work *To Instruct and Delight: Children's and Young Adults' Literature on CD-ROM*, H. Bennett wrote, "Something magical and non-threatening happens when a children's story weds a computer."

Children's Tech Review wrote that when a children's book comes to a touch screen, it can be called many names, including: "ebooks," "living books..."

ROM-4

translation of ROM-4, would mean "We want to be hot and rap, yo!" ROM-4 made their CD debut on June 21, 2006, when they released their CD single called

ROM-4 is a four-member J-pop group that consists of Masaki Kaji, Masataka Kubota, Ryo Kimura, and Gouta Watabe.

Amiga CD32

1200 personal computer without the I/O ports, but with the addition of a CD-ROM drive in place of floppy and a modified Advanced Graphics Architecture chipset

The Amiga CD32 (stylized as Amiga CD32) is a home video game console developed by Commodore as part of the Amiga line, as well as the final hardware to be developed by the company. Released in September 1993 in Europe, Australia, Canada, and Brazil, it was marketed as the "first" 32-bit games console and is essentially a keyboard-less Amiga 1200 personal computer without the I/O ports, but with the addition of a CD-ROM drive in place of floppy and a modified Advanced Graphics Architecture chipset for improved graphical performance.

Unlike Commodore's CDTV released two years prior, the CD32 was designed specifically as a games machine. The majority of CD32 game software were ports of existing Amiga 1200 or Amiga 500 titles, and many did not take advantage of CD capabilities like CD music or...

Twilight (warez)

Twilight was a Dutch series of monthly warez CD-ROMs and DVDs. The series ran from early 1996 until June 16, 2001. In 2003, "B.G." (full name undisclosed)

Twilight was a Dutch series of monthly warez CD-ROMs and DVDs. The series ran from early 1996 until June 16, 2001. In 2003, "B.G." (full name undisclosed) was convicted for copyright infringements related to the Twilight series, as well as associated violence relating to the discs' production. The court estimated he

had earned approximately 1,678,215 Euro with the series in question as well as others. The series was originally distributed from out of the Netherlands, but later appeared in many European countries as well.

In 2012, an independently operated website called twilight-cd.com began cataloging the history of the Twilight discs.

Compact Disc Digital Audio

influential in the progression of video game music, used in mixed mode CD-ROMs, providing CD-quality audio popularized during the 1990s on hardware such as PlayStation

Compact Disc Digital Audio (CDDA or CD-DA), also known as Digital Audio Compact Disc or simply as Audio CD, is the standard format for audio compact discs. The standard is defined in the Red Book technical specifications, which is why the format is also dubbed "Redbook audio" in some contexts. CDDA utilizes pulse-code modulation (PCM) and uses a 44,100 Hz sampling frequency and 16-bit resolution, and was originally specified to store up to 74 minutes of stereo audio per disc.

The first commercially available audio CD player, the Sony CDP-101, was released in October 1982 in Japan. The format gained worldwide acceptance in 1983–84, selling more than a million CD players in its first two years, to play 22.5 million discs, before overtaking records and cassette tapes to become the dominant standard...

List of international databases on individual student achievement tests

by students. List of online databases "The Civic Education Study (CivEd)

Countries". Retrieved 14 March 2017. "Civics Education Study 1999 (CD-ROM)" - This article contains a list of international databases on individual student achievement tests that can be used for psychometric research. In other words, this table only includes datasets containing items measuring ability and directly answered by students.

Playdia

Suzu no Sentaku instead of Bandai). The Playdia has a CD-ROM drive, and the software is on CD-ROM. The controller has two AAA batteries with infrared wireless

The Playdia (?????, Pureidia) (developed under the codename "BA-X") is a fifth-generation home video game console released exclusively in Japan in 1994 at the initial price of ¥24,800. It was intended for a young audience and, like many consoles of the era (such as the LaserActive and the 3DO Interactive Multiplayer), was marketed more as a multimedia home entertainment system than as a dedicated gaming console, with anime quiz software and edutainment making up most of the game library. The Playdia uses a single infrared joypad with simple controls. Bandai, the Playdia's manufacturer, was the only software publisher to support this console (except for VAP who published *Ie Naki Ko - Suzu no Sentaku* instead of Bandai).

Clueless

Chyna-Rose Frederick (Dionne), and Romona Lewis-Malley (Tai). The Clueless CD-ROM is an activity and mini game collection based on the Clueless film and television

Clueless is a 1995 American coming-of-age teen comedy film written and directed by Amy Heckerling. It stars Alicia Silverstone, and was produced by Scott Rudin and Robert Lawrence.

The film is a loose adaptation of Jane Austen's 1815 novel *Emma*. The plot centers on a beautiful, popular, wealthy high school student who wants to do "good deeds". She befriends a newcomer and decides to give her a makeover while playing matchmaker for her teachers and examining her own existence.

Clueless was filmed in Southern California over a 40-day schedule. Heckerling studied Beverly Hills High School students to understand how teenagers in the 1990s talked and learned some appropriate slang terms from them.

The film grossed \$88 million worldwide, and was further successful in the home video market. It received...

Oxford Advanced Learner's Dictionary

hardback ISBN 0-19-431510-X international student's edition, paperback ISBN 0-19-431550-9 paperback with Genie CD-ROM ISBN 0-19-431585-1, 978-0-194-31585-2

The Oxford Advanced Learner's Dictionary (OALD) was the first advanced learner's dictionary of English. It was first published in 1948. It is the largest English-language dictionary from Oxford University Press aimed at a non-native audience.

Users with a more linguistic interest, requiring etymologies or copious references, usually prefer the Concise Oxford English Dictionary, or indeed the comprehensive Oxford English Dictionary, or other dictionaries aimed at speakers of English with native-level competence.

Rosetta Stone (software)

Spanish) and four level-two courses (English, French, German, Spanish). A CD-ROM product called The Rosetta Stone PowerPac featured introductory versions

Rosetta Stone Language Learning is proprietary, computer-assisted language learning (CALL) software published by Rosetta Stone Inc, part of the IXL Learning family of products. The software uses images, text, and sound to teach words and grammar by spaced repetition, without translation. Rosetta Stone calls its approach Dynamic Immersion.

The software's name and logo allude to the ancient stone slab of the same name on which the Decree of Memphis is inscribed in three writing systems.

IXL Learning acquired Rosetta Stone in March 2021.
